

TEMARIO PRUEBA ÚNICA NACIONAL

EDUCACIÓN BÁSICA REGULAR – NIVEL SECUNDARIA – INGLÉS

The following list of topics aims at making the participants aware of the kind of knowledge and skills that will be the object of assessment in the “Concurso Público para el Ascenso de la Primera a la Segunda Escala Magisterial de la Carrera Pública Magisterial”.

Please note that these types of knowledge will be approached in the assessment from the point of view of their application in pedagogical practice. In this sense, the assessment requires an appropriate understanding of the relevant topics, in such a way that this knowledge can be applied in the classroom and pedagogical activity at large.

THEORIES, PRINCIPLES AND APPROACHES RELATED TO PEDAGOGICAL PRACTICES:

Pedagogical theories and processes

- Constructivism and social constructivism
- Meaningful learning
- Probing and activating prior knowledge
